AGAINST THE SALOON.

Saloon Republicans in Convention at Chicago

Pledge their Efforts to the Cause of Temperance.

Speeches Made by Senator Blair and Governor Windom.

Anti Saloon Republicans

CHICAGO September 16 The first national convention of the anti saloon republicans began its session in this city this forenoon when the convention was called to order there were three hundred delegates present. The meeting was called to order by Albert Lindley of Kansas who asked Rev Arthur Edwards of Illinois to open the proceedings by prayer. Colonel Hobbs was requested to read the letter of United States Senator Henry W Blair of New Hampshire temporary chairman, B C Shafer, Illinois temporary secretary, E L Elliott of Iowa assistant secretary, and F R Hutchins of Des Moines, Iowa recording clerk. The men suggested were elected unanimously.

Upon motion, the convention Senator Blair of the committee of the convention in a honored in being asked to preside over a great and historic convention, which I believe will stand in the annals of all time. We are here for the destruction of a traffic throughout this country and throughout the world. I think I speak the sentiments of the convention when I say that, whether for rum and low license we are, with which license [cheers], that association between license and prohibition was one of the bitterness [Great cheering] [illegible] were in that party and were to be driven out, and it was only through the [illegible] that the repression of liquor could be secured.

The committees on credentials reported that [illegible] were present as follows: Iowa 40, Kansas 30, Indiana 40, Maine from Vermont 9, New York, Rhode Island 17, Michigan 13, Wisconsin 11, [illegible], Texas 7, Dakota 5, Pennsylvania 10, New Jersey 7, New Hampshire [illegible]. The committee on permanent organization reported the name of ex Senator Windom of Minnesota, as permanent chairman. He was unanimously elected. Secretaries and assistants were elected as permanent officers. Vice presidents were named for each state.

Windom was loudly cheered as he was escorted to the chair by ex-Senator McDill of Iowa and General Conway of New York. The new chairman appeared before the convention and addressed the gentlemen of the convention. I highly appreciate the great honor you have conferred upon me. There are possibly gentlemen present who could state more than I can the precise purposes of this great convention and we are under the call of true anti saloon republicans desiring through that party to accomplish what we believe to be of great good for the American people. For myself I never had the slightest thought of consenting to organize a new political party. I think that such thought does not enter the mind of any other delegate here. The party called the Prohibition party, that disciple of human rights, coined the homestead laws, that buried the great rebellion that defended liberty in peace and advanced it to the [illegible] of the [illegible] of the [illegible] of [illegible]. The speaker said the record of the party for twenty years showed [illegible] this new issue and [illegible] history. The issue was as grave as any the republicans had to meet in the past. Referring to the question of whether it was wise to denounce the policy of the [illegible]. We do not meet to dictate to any other party," said the speaker. "We come simply for consultation and [illegible] to encourage it, to take hold of the question which we surely [illegible] to do and the sooner the better. The speaker said he would look at the question solely from the political standpoint, leaving the moral standpoint. The government is [illegible] with its assessments [illegible] to day controlled the polities [illegible] "It elects your mayors," the speaker said. In Minnesota the democratic party had nominated for governor the [illegible] of saloon interests. He [illegible] 10 minutes on the general issue. He expected on the prohibitionists, and [illegible] was to show that they could carry out [illegible] better way [illegible] the leaf of the [illegible] party. They would find that that [illegible] was not [illegible] that platform and party was also [illegible] hand. If the republican party [illegible] to declare for [illegible] option [illegible] recognize the right of the people to vote [illegible] when they wished to do so [illegible] of temperance should follow that [illegible]. At the conclusion of Windom's address the convention adjourned to 2 o'clock.

On the convention reassembled in the afternoon the committee on resolutions was in the part for portions of the day. In the meantime speeches were made by a number of delegates on the general topic of the evil effects of the saloon in the several states of the union. The report of the committee was as follows:

We, the saloon republicans by their representatives in national conference assembled, declare as follows:

First—That the liquor traffic as practiced in the United States is the enemy of the people, a fruitful source of corruption in politics, the family of anarchy, the school of crime and with its avowed purpose of selling to corrupt, control elections and hold office is a menace to the public welfare and destructive of the confederation of all good citizens.

Second—That we declare war against the saloon. We do it is to be the supreme duty of the government to adopt such measures that will restrict the manufacture and sale of intoxicating liquors in all the states of the United States.

Third—We believe the best political work of dollars will be of no avail to the verdict is to the people of the whether it shall be prohibited by constitutional amendment and until such amendments are adopted by the passage of local option laws.

Fifth—That inasmuch as the traffic in business creates special burdens of taxation upon the people the support of courts, jails and asylums, we therefore a large annual tax should be levied upon saloons so long as they continue to exist, and that they should be made responsible for all public and private injuries resulting from the traffic.

Sixth—That the republican party should at all times whenever in power will faithfully enforce with its over ordinances and laws or constitutional amendments they may adopt for the better or suppression of the liquor traffic.

Seventh—That we approve the action of congress and those states that have done so in providing for teaching the physiological effects of intoxicants in our public schools and we earnestly recommend to every state legislature the enactment of such laws as shall tend to thorough teaching of such effects to our children.

Eighth—We demand that the republican party to which we belong, and whose interests we cherish shall take a firm and decided stand against the traffic of the home and the treasury of the nation. In favor of this policy and the principles we pledge our lives to do our part to cause the adoption of such standard by all upon the temperance men and all friends of humanity of whatever party or name to join with us in securing the objects and in support of the republican party so far as it shall adopt them.

The resolutions were adopted as a whole with only two or three dissenting votes. During the latter part of the convention there was a long and receiving of the report of the committee, Hiram Price of Iowa spoke of prohibition as the ultimate result of the present agitation. The following national committee was appointed. Some existing vacancies are to be filled hereafter: Maine, Senator Frye, New Hampshire, Senator Henry W Blair, Vermont, George A Brown, Massachusetts, Col E H Haskell, Rhode Island, Henry B Metcalf, New York, Gen Thomas W. Conway, New Jersey, Rev H H Carroll, Pennsylvania, Hon W. W. Bain, Iowa, Hiram Price, Michigan, General A B Nettleton, Indiana, Ex Gov Will Cumback, Wisconsin, I P Wheeler, Kansas, Albert Griffin, Illinois, Col W A James, Georgia, Hon. Alfred G Beck. The convention then adjourned sine die.

The Wyoming Fair

DENVER, September 16. A Cheyenne special to the News says: The elements seem to have conspired against a successful beginning of the first exhibition of Wyoming's fair. The snow storm of yesterday deferred the racing for a day and culminated in a rain storm which set in last night at 11 o'clock and continued up to 10 o'clock this forenoon, with occasional light showers during the afternoon, consequently there was a very limited crowd at the ground and only two races, the first of which was a three in five, mile heats, trotting or pacing, for horses that had never spoken for money. There were eleven entries, as follows: Whalebone, Edith S, Red Line, Frank Drew and Pendennis, Red Line won in straight heats, time 2:32, 2:33, 2:31. A protest being entered the race did not start. Of course the horses were greatly impeded by heavy and resulting from the storm. A cow pony half mile race, six starters, created much fun and was captured by Blue Dick, owned by M Quinlan of Laramie. A beautiful exhibition of the territorial fair commands for showing to all the way from tiny babies to three year olds. The road trotting stallion two mile dash was contested and only contested by Davis & Choate against the other two refusing to go for the money. The money was awarded to Kate. In impromptu sports good weather will come with the morrow. It is that it may be the intention of the management to call the races including the deferred one of yesterday and to day, on account of the [illegible] all interest in the liberal purses. The races will be in both trotting and running in which Colorado horses will be the leading factors.

An Interior Decision

WASHINGTON, September 16.—Acting Secretary of the Interior Muldrow to day in a decision denied a motion for filed by Charles P Sebout in and others for review of the decision of Secretary Teller of November 7, 1884, rejecting their application for a mineral survey in the Colorado Springs claim held at St Louis, Mo. The survey referred to represents a large amount of valuable property within the limits of the city of St Louis. The case has been a prominent one in the interior department for several years.

GENERAL NEWS.

Michigan Swept by a Destructive Hurricane

President Diaz' Comments on the Cutting Difficulty.

The Forestry Congress Finish their Work at Denver.

A Severe Storm

DETROIT, September 16. A storm this afternoon extended over most of southeastern Michigan, being especially severe at Howell where one man was killed and much property demolished. Reports are to the effect that a large part of the town has been destroyed, but all wires are down and full particulars have not been received.

DETROIT, September 16.—A terrific wind storm swept over southeastern Michigan of which but meagre reports have been received as yet. At Howell the storm came from the east and extended over a large extent of territory. A hurricane six miles wide coming from the east laid low many buildings in the eastern part of the city. John Smith's house was blown down and his son Fred, aged 20, was crushed to death, being flattened by falling timbers. In several instances barns were totally wrecked or blown away, while horses and cattle were left unhurt on the sites of the buildings. Many trees were blown down. The storm was the severest ever suffered at Howell. At Fint Brooks it is reported the storm divided going north and south. But little damage was done in town but a hurricane was reported from south of that place. From Adrian comes a similar report. Houses were demolished, trees blown down and fences demolished. Heavy damage is rumored from the country round about Adrian, but the wires are working badly and definite reports are not obtainable.

The Forestry Congress

DENVER, September 16. The American forestry congress adjourned to night after electing the following officers for the ensuing year: President, G W Milner, of Illinois, vice president, H G Joly of Quebec, Martin Allen of Kansas, G H Parsons of Colorado, R H Worder, of Cincinnati, Abbott Kinney, of California, recording secretary, F H Brisley of Colorado, corresponding secretary, D C Bateman, of Washington, D C treasurer, Leo Weltz, of Ohio. Resolutions were adopted asking congress to establish an agricultural and forestry experimental station on the unoccupied portion of the land in the District of Columbia known as the Arlington estate, said station to be under the control of the department of agriculture, for the passage of a bill for the protection and preservation of timber land now remaining in the possession of the government, for establishing the office of commissioner of forestry to provide means to prevent further destruction of forests by fire and the prosecution of those setting fire to timber. A resolution protesting against repeal of the timber culture law was laid upon the table.

President Diaz' Message.

CITY OF MEXICO, September 16. In his annual message to congress, read on the assembly of that body to day, President Diaz said Mexico's relations with foreign governments had continued generally on terms of friendship and good understanding. There had however recently occurred an incident which threatened to destroy the harmony and cordiality between this republic and its northern neighbor. The case, of small importance in itself excited in an unexpected manner owing to the conjunction of circumstances and passions on either side of the Rio Grande. Diaz continues the message, to the matter of the American journalist, which has already come to your knowledge. We must congratulate ourselves that in such an emergency the dignity of the government and the good name of the country could be saved with our accustomed loyalty, thanks to the prudent and strictly legal conduct of the courts and authorities of the state of Chihuahua as well as to the good sense of our own people and the government of the United States, which which but for information did not insist on its demand which gave rise to the transient difficulty. Texas papers have alluded to other cases of outrages on citizens of that country by officials of our own. In their zeal to accumulate charges against Mexico they have referred mistakenly to an individual named Francisco Arrescures, author of well defined crimes committed on our territory. It will suffice to observe that Arrescures was of Mexican nationality and was voluntarily delivered by Texas authorities to the force of the state of Coahuila without any previous demand for his extradition, so that in this case it will be seen that as regards this supposed citizen of the United States there is no occasion for controversy between the two governments.

A Postmaster's Curiosity

DENVER, September 16. A Sun Elite special to the News says: There was considerable excitement in Tin Cup to day over the arrest of Postmaster Mawherter by Postoffice Inspector Waterbury on a charge of opening several letters addressed to parties in Tin Cup and relating to the Wahl murder case, the preliminary examination of which was held before Mawherter as justice of the peace. It is understood that the inspector obtained a full written confession of his guilt from Mawherter. He has been taken to Gunnison by Deputy Marshal Shores for examination.

The Army of Tennessee

ROCK ISLAND, Ill, September 16.—At a meeting of the Army of the Tennessee this morning committee reports were made and adopted. The next meeting is to be held in Detroit on the second Wednesday of September, 1887. Officers were elected as follows: President, Gen W T Sherman, vice presidents, Col J F How of St Louis, Capt W D Leach of Cedar Rapids, Cap C F Loustram of Cleveland, Major A V Bohn of Leadville, Surgeon S C Plummer of Rock Island, Capt J C Drake of Austin, Texas, Capt C C Chadwick of Detroit, Lieut W J Hill of Rondale, Kansas, Colonel Edward H Deas of Rushville, Ind, Capt Edward Spear of Minneapolis, Major George P Hawes of Des Moines, recording secretary, Colonel L M Dayton corresponding secretary, General A Hickenlooper treasurer, Colonel M Force. The matter of having the prayer for the success of the Army of the Tennessee was taken up and after a spirited discussion the president was empowered to appoint a committee of five to report on the matter at the next meeting. The thanks of the society were extended to the people of Rock Island for generous hospitalities, to the committee on removal of the Lincoln monument and to General Chetlain for his learned and philosophical address. The society was then formally adjourned. General Sherman in closed the proceedings with a brief address expressing the hope that all would have a happy year and come together again at the next annual meeting. In the afternoon the city was taken on a special train to the Rock Island arsenal where a salute of seventeen guns was fired in honor of Governor Oglesby, and where the workshops were gone through. In the evening there was a banquet.

The Nickel Plate Disaster

BUFFALO, September 16. The list of killed in the Nickel Plate collision which was further swelled to 18 by the finding of three more bodies unknown beyond recognition is now supposed to be complete. The responsibility for the disaster has been settled as nearly as possible pending full investigation. Engineer Brewer has not yet been found, but a letter from him addressed to the editors appears in today's express. The letter bore no date and the post mark on the envelope was that used by the clerk on the Chase Street train. In it he says:

It is reported that I ran away for fear I should be put on trial for that terrible accident at Silver Creek. I have not run away nor do I intend to, but in jumping from my engine I hurt my back and hip, and was unable to assist. I left the wreck. But in regard to my stopping in Silver Creek I did stop and took on passengers. I had to meet a local at Silver Creek. There is no side track there and never having had orders before to pass a train there I proceeded the conductor having given me the signal to go ahead, which he should not have done as he had the same orders that I had, and when he saw me starting the train he should have used the bell cord or automatic brakes in the coaches to stop me.

[Signed] LEWIS BREWER,
Engineer

If the above statement is true it relieves those in charge of the freight train and the train dispatcher from the responsibility and places it solely upon Conductor Harrington and Engineer Brewer. Parties at Silver Creek assert that Harrington signalled Brewer to go ahead but that he did so on the supposition that the engineer had no orders to the contrary, there having been no orders given to either of them at Silver Creek. Railroad officials state positively that Brewer's orders were to pass the freight train at Silver Creek and that he disobeyed them. Coroner Blood of Dunkirk will begin an inquest to morrow morning.

A Slugging Match

ROCKAWAY BEACH, L. I., September 16. Jimmy Carroll of New York, and Dick Collyer of Philadelphia fought with small gloves to a finish, Queensbury rules, in a sporting resort here this afternoon in the presence of about sixty persons, who paid $10 each to see the mill. Twenty two rounds were fought in one hour and 31 minutes, the fight being given to Carroll, who managed to get in the last blow. At the finish they looked like a couple of fighting cocks, after a hard battle, floundering around the ring, neither having strength enough to make a hit. The fight took place in a ring formed by three sides of the room with a rope stretched for the fourth side, giving the men about 25 feet of leeway to fight in. The first few rounds were decidedly interesting, both men using their hands scientifically, doing little damage to each other though Carroll's strength and length of reach overbalanced Collyer's science. The affair became monotonous later on, when the men badly winded to many rounds did little but spar for time. It was evident in the fifteenth round that Collyer was beaten, Carroll having got in several left handers on the latter's eye and jaw, while Collyer could do little better than get in a few rather short undercuts on his opponent's chin. In the nineteenth round encouraged by the shouts of their friends, the men rushed and attempted to do some slugging but were too weak to hurt each other. The finish was ludicrous, when the men in attempting to hit each other reeled and fell toe her back to back. Carroll however was able to rally and swinging around dealt Collyer a blow in the neck with his left which sent him reeling to the rope. Collyer failed to come to time and the referee awarded the fight and money to Carroll.

Settlement with Rosa

WASHINGTON, September 16. A warrant for $45,000 has been issued to the assignee of John R Rosa in that payment for the Dolphin and for the care of the monitor Puritan. This is accepted in settlement of all claims of John Rosa against the government and the Dolphin becomes in law what she long has been in fact, the property of the government.

PITTSBURG, September 16. Robert Pittock, son of Henry L Pittock, proprietor of the Portland Oregonian, died at Cannonsburg, Pa, last night. He was a student at Brown seminary. Mr and Mrs H L Pittock having heard of their son's illness are now on their way east, but have not yet heard of his death.

Lieutenant Henn is not satisfied with his defeat by the Mayflower, and the general opinion among eastern yachtsmen is that he will be given another opportunity under favorable conditions.

The Northern Pacific report read at the annual meeting yesterday gives an idea of the rapid growth of the northwest. The absorption of the railroad lands has been great, and an increase of over two millions in local freight traffic speaks well for business prosperity.

The president's circular to office holders was not intended to apply to democrats, though instances of violation are as numerous as ever. Some of the congressional contests have been waged by federal officers in plain violation of the order, while four republican clerks who participated in the Vermont campaign have been dismissed. While President Cleveland is shooting deer in the Adirondacks his lieutenants are rigidly enforcing his civil service order against the republicans.

We are glad to note that the mayor and city council have shown a disposition to enforce the liquor ordinance. The ordinance is a very liberal one and if the druggists cannot live up to its provisions they deserve to be prosecuted. Mayor Dow and the aldermen have certainly shown a commendable spirit in their endeavor to enforce the ordinance, and the sentiment of all law abiding citizens will be with them in their efforts to fulfill their sworn duty.

Succi, the Italian who is fasting at Clifton has nearly completed his task of going thirty days without food. He proposes to repeat this feat at Paris and at London. As a test of mere ability to exist without food the result does not compare with Dr. Tanner's forty days but great interest has been excited by the claim made by Succi that he has discovered an African herb from which he prepares a liquor capable of sustaining life for a long time. He proposes to enter into the manufacture of this liquor which at a low cost would prove a great boon to the poor of the world. Scientific men working the test affirm that Succi retains his muscular activity though his weight is diminishing rapidly.

The anti saloon movement, which took shape in the convention in Chicago yesterday cannot fail to have a great influence on political politics. The resolutions are to the point and unmistakable in their condemnation of the liquor traffic. But it is doubtful if even the adoption of the principles by the republican party would eliminate the liquor party. Many temperance advocates will vote under the republican standard, but men like St. John and Neal Dow, who strive to drown the republican party, hoping to control a dominating organization, would still cherish their delusion and continue to make impossibilities.

At the annual meeting of the International Typographical union held in Pittsburg in June, it was announced that Messrs. G. W. Childs and A. J. Drexel of Philadelphia had each contributed $5000 to the union. It was resolved that this amount should form the basis of a permanent fund to be called the Childs and Drexel funds, and that on the birthday of Mr. Childs all union printers east of the Mississippi river should contribute the amount received for setting 1000 ems to the fund and those west of the Mississippi should do the same on the birthday of Mr. Drexel. The 16th inst. being the birthday of the latter gentleman was observed by the union printers of this city in the manner prescribed by the union.

Some very heavy payments of pensions have been made during the present administration. For instance, a pension was granted to Samuel W. Robertson, Company K, 4th Kansas Volunteers. His first payment was $11,053.60. Marcus D. Enderson of Company E, 5th Indiana, was granted a pension for total blindness. His first payment was $11,741.16. Moses Moredock, Company I, 28th Illinois Volunteers, was on September 21 granted a pension for total insanity, involving a payment of $11,004.76 and $72 per month after said date. A pension of $12,355.06 was granted to Frederick Winch of Company B, 5th Pennsylvania cavalry. C. R. Fullmer, of Indiana chief of the record division of the pension bureau, says the whole number of pensions rolled on account of the rebellion have been borne upon the pension rolls from 1861 to June 30th, 1888, is 501,881. The whole amount paid for these pensions during that period was $850,840,000.18. During the fiscal year ending June 30th, 1888, there were issued 81,423 pension certificates. For the month of June alone there were issued 10,375 pension certificates, and for the same fiscal year the payments were $89,747,389. The new names added to the rolls foot up 43,168, of which 2,314 were restorations.

He was sued for $5,000 for failing to keep out of the penitentiary a man who was indicted for murder and convicted of manslaughter. Judge Hamer at that time, some eleven years ago, was a practicing attorney at Kearney, and defended the man who now sues him.

Senator Jones, of Detroit formerly of Florida has written a letter to a friend in Washington in which an intention to return to that state is expressed by the warm Jones. It is also said that Mr. Jones will be a candidate for re election to the senate. A flat denial of any political purpose in going to Detroit is made and bad health is pleaded in explanation of the jaunt. The prodigal is fast coming to have wearied of Michigan hunks.

Carl Plocitz of Greifswald Germany the eminent naturalist, has committed suicide by taking poison. In a letter which he left he stated as a reason of his despondency the fact that he was threatened with total blindness, that his sight would be gradually weakened and within a few weeks and thus becoming unable to continue his studies made life no longer desirable for him. He added that he felt he had a right in his seventy third year, to put an end to an existence which was no longer of any use to himself or to his fellow men. Only a week before he had had a magnificent collection of butterflies, probably unequaled anywhere.

The Twins of Locana

John and Jacob Tocci, the twins of Locana, who have been shown in almost every city of Europe as the successors of the famous Siamese twins, are dying in the Prater. Their mother is a strong, healthy country woman. The boys resemble each other exactly, have pretty, delicate features, and are now in their fourteenth year. Johnny and Jacob are joined from the left rib, and have one kidney and one pair of legs between them. Jacob moves the right leg, John the left. The twins even think, and keep their balance by leaning against each other's back. Jacob is often and heavily addicted to drink, the two, and to all appearance it is he who keeps his brother alive. Two days ago the twins quarrelled for a toy, and John so excited that his heart blood suddenly ceased to flow and he came into a condition of complete lethargy from which he did not awake the following morning. The boy suffered from the same complaint a year ago in Berlin and Professor Virchow then declared that a recurrence of the lethargy would certainly put an end to the twin's life. A number of Vienna physicians are observing the melancholy but they entertain little hope for John's life and if John dies Jacob must follow him to the grave.

The twins as they lie in their bed offer a strange contrast. Jacob with feverish eyes and a red face seems to harbor all the blood that has retreated from John's lifeless body. The conscious boy cries incessantly, because he has often heard Professor Virchow's remark repeated and knows that his brother's death is but the harbinger of his own. The poor creatures are meeting with the same fate that some time ago put an end to the life of the Siamese twins the second of whom died of poisoned blood twenty days after having spent six terrible hours with the corpse of his brother. The advisability of an operation separating the living from the dead brother was discussed at the time, but before a resolution could be taken death decided the question. The twins have lived eight years since then and the surgeons say they would have left to morrow for New York where Barnum had offered to hire them for a year at a salary of $30,000. In the event of their death the parents have sold their body to a London national museum for the price of £5,000.

His Offense was Rank

New York Times.

"Out of West Point, a cadet who is of the innocent Waterloo, a brave and daring, but a boisterous comrade, a man of generous nature and will intuitive. West Point's rocks will crumble ere Wagstaff's deeds are forgotten, but it is not that his name is attached to which I have never heard quoted on the ground up the Hudson where we strike our soldiers and Philippines are pretty sure that Hitherto it has never occurred to the public that it deserves further. Wagstaff ranked as colonel in war times but for gallant and meritorious conduct he was brevetted brigadier general. One day an acquaintance met the brave man on the street and asked him whether it was his rank as colonel or his brevet as brigadier general that regulated his salary. A merry twinkle came in the Wagstaff eye and he replied:

"When Hamlet's father died the air May offend his rank and smells to heaven. He didn't mean brevet rank, for there is no rank—d scent in it."

The members of the national forestry congress which has been in session at Denver during the past week will visit Colorado Springs to-morrow. They will arrive from Denver on the Salt Lake express, and carriages will be in readiness to take them through the city. Lunch will be served them at The Antlers, after which a reception will be given them by the citizens of the town at the conclusion of which they will proceed to Manitou where they will remain over Sunday.

It was rumored on the streets yesterday that Mr. Ainsworth Brown had announced himself as a candidate for county judge and was in the hands of his friends. Mr. Brown possesses the following qualifications, which should satisfy even the most exacting of our citizens. First, that he has read law with a prominent city lawyer for three months and second, that he has never had any county office. If this rumor should be confirmed, Mr. Brown will prove a formidable candidate, and opposition to him will be well nigh futile.

Auditor L. F. Murphy, of the D. & R. G. R. R. Co., has furnished us with a statement of the estimated earnings of that corporation for the second week of September, as compared to the corresponding period last year, together with the estimated earnings of the year to date, compared with the actual earnings for the same period last year:

The Chicago Opera company comprises thirty-six members and each piece in their repertoire is staged with special scenery and effects. On Monday evening Gilbert & Sullivan's "Sorcerer" will be sung with Miss Lizzie, or as she is now known, Viola Frost, in the leading role of constance. The part is one in which she has appeared in all the larger cities and in which she has received universal praise. On Tuesday evening she appears in the Princess Lydia in Von Suppe's charming opera "Fatinitza." This role is probably one of the most difficult in the catalogue of light opera, yet her assumption of it has received most favorable criticisms from the eastern press. The Denver News in speaking of the company says: "It is the best opera company that has ever visited Denver."
